Egret Dual Flush

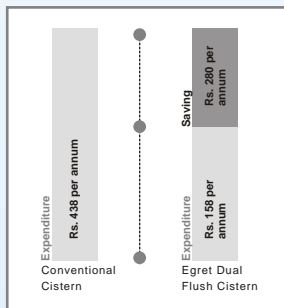

The water saver - money saver cistern

Thanks to the **Commander Dual Flush Cisterns** with the 'Large Eco- Handle', your cistern will be able to save up to 65% of the water used by a conventional cistern (large handle will flush 3 liters and small handle 6/10 liters).

This means that the **Egret Dual Flush** will pay itself in no time.

These figures count for 365 days of use in a 4 person household. The twin volume technology provides the following saving:

Conventional Cistern		Egret Dual Flush Cistern	
Handle Type	Conventional	Small	Large
Usage per day	5 Times	4 Times	Once
Cistern Capacity	10 Litres	3 Litres	6 Litres
Consumption	50 Litres	12 Litres	6 Litres
Total Consumption	50 Litres	18 Litres	

Total saving: 50 litres - 18 litres = 32 litres per person
= 128 litres per household per day
= 46,720 litres per household per year

With water costs of Rs. 4.00 per 1000 litres, and drainage at Rs. 2.00, the total saving of Rs. 6.00 per 1000 litres is Rs. 280.00 per cistern per year.

- India's first Green Cistern with **65% Water Savings**
- **6/3 liters** cistern manufactured as per **IS 7231 :1994**
- Egret is not just a 6/3 liters cistern it also has a capacity of accommodating 10 liters of water when siphon overflow is in open position.
- Compatible with all leading Sanitaryware of **IS 2556 : 2004**
- Egret is a highly efficient & compact product
- Additional Internal Overflow
- Inlet valve manufactured as per **IS 13049 :1991** to sustain pressure of 15kg/cm²
- Rigorously tested Inlet Valve as per Australian standards for 2, 00,000 cycles for beta valve as against Indian standards for 3,000 cycles
- Egret is Mosquito Proof Cistern as lid has a lip & an integral lock to ensure no mosquito enters the cistern
